# FUNGICIDE PORTFOLIO

| | BOTECTOR® Protective Shield | DURALEV™ Systematic Protection | GARGOIL® Contact Kill |
|---|---|---|---|
| **DESCRIPTION** | **Preventative fungicide** delivering outstanding, dynamic protection against fungal pathogens including those causing rots | **Preventive biofungicide** with systemic activity against a broad spectrum of fungal and bacterial diseases | **Broad spectrum fungicide, insecticide, miticide.** Combined contact and preventative control against fungal pathogens |
| **MAJOR TARGETS** | *Botrytis spp.*, *Monilinia spp.*, and additional foliar and fruit rot pathogens | Powdery mildew, Downy mildew, Botrytis, Anthracnose, Alternaria, Scab | Foliar diseases |
| **ACTIVE INGREDIENT** | Two living strains of the natural yeast-like fungus *Aureobasidium pullulans* (80%) | Cerevisane® (non-living yeast cells) | Cinnamon Oil: 15.0%<br>Garlic Extract: 20.0% |
| **FORMULATION** | Wettable granule (WG) | Wettable powder (WP) | Suspension concentrate (SC) |
| **MODE OF ACTION** | Colonizes plant surfaces and out-competes pathogens and blocks pathogen entry points. Growth and activity in responds to the same cues as fungal pathogens - stays ahead of disease and is UV tolerant | Systemic resistance induction - naturally activates internal plant defenses, allowing the plant to fight off future pathogen infections | Multi-site: Cell membrane disruption, enzyme inhibition, spore germination suppression, salicylic acid-related plant defense induction |
| **KEY TIMINGS** | Apply during bloom, early fruit development, ripening and pre-harvest – protect against rots and other fungal diseases | Apply early season during vegetive development and continue to preventatively control various fungal and bacterial diseases | Apply when disease pressure risks increase, especially when mildew risk increases, and in place of or to supplement contact products |
| **SAFETY** | No MRLs, 4hr REI, 0-day PHI | No MRLs, 4hr REI, 0-day PHI | No MRLs, no REI, 0-day PHI |
| **KEY FEATURE** | Tank-mix compatible with >100 conventional fungicide products, including many copper products. | DURALEV supports other products in tank-mixes and rotations. | Exempt from residue, re-entry and pre-harvest limits. Low-oil plant extract formulation is widely tank-mix compatible and carries minimal phytotox risks. |
