Organic

BIOLINK[®]

Moly4

4% Mo

Complexed Micronutrient for prevention and correction of Molybdenum Deficiency

PRODUCT INFORMATION

Organic BioLink[®] Moly4 is a liquid molybdenum product complexed for improved availability and uptake by the plants. It provides a quick boost to plants under nutrient stress and corrects molybdenum deficiencies. Plants lacking molybdenum deficiencies tend to show some yellowish or white areas between the veins.

Organic BioLink[®] Moly4 is ideal for use in sandy and acidic soils because they contain less available molybdenum for plant growth.

GUARANTEED ANALYSIS

Total Nitrogen (N)	1.0%
1% Water Soluble Nitrogen	
Molybdenum (Mo)	4.0%
4% Complex Molybdenum (Mo)	

DERIVED FROM: Soy Protein Hydrolysate, Sodium Molybdate, Citric Acid as the complexing agent.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes Eye Irritation. Harmful if Swallowed

PRECAUTIONARY STATEMENT

Wash thoroughly after handling product. Do not eat, drink or smoke when using this product. Avoid contact with eyes, skin or clothing. Do not breathe the mist or vapor.

FIRST AID

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If swallowed:** Call a poison control center or doctor if you feel unwell. Rinse mouth. **If any of the symptoms persist, call a poison control center or doctor for treatment advice.**

NOTICE OF WARRANTY – SAN Group Biotech USA, Inc. warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of SAN Group Biotech USA, Inc. In no case shall SAN Group Biotech USA, Inc. be liable for consequential, special or indirect damages resulting from the use or handling of this product. SAN Group Biotech USA, Inc. makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

CAUTION: This product is to be used only on plants which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants).

Organic BioLink[®] Moly4 can be applied to all food and non-food crops such as brassica (cole), berries, citrus, cucurbits, field vegetables, fruiting vegetables, fruit trees, grapes (raisin, table and wine), leafy vegetables, root and tuber vegetables, row crops, strawberries, tree nuts, ornamental trees, shrubs, flowers, containerized plants, lawns and turf.

Organic BioLink[®] Moly4 can be applied by ground or aerial application. Use sufficient water for thorough and uniform coverage of foliage or soil.

Foliar Application: 1 to 8 ounces per acre. Apply to plant foliage to point of run-off, throughout growing season as needed.

Soil Application: 1 to 2 pints per acre. Apply in irrigation water, including drip and sprinklers.

Nursery & Container: 1 to 2 oz per 100 gallons of water. Apply to plant foliage run-off or as a soil drench around base of plants. Repeat applications as needed.

Compatibility: Always conduct a compatibility jar test before mixing **Organic BioLink[®] Moly4** with new products.

NOTICE: Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

Use best management and cultural practices when applying **Organic BioLink[®] Moly4**. Use additional fertilizers as needed based on soil and tissue testing.

STORAGE AND DISPOSAL

Store in original container out direct sunlight. Triple rinse and puncture empty container. Dispose of contents and container according to local, state and federal regulations only.
