SAN AGROW

SHAPING THE *agri*CULTURE OF TOMORROW

DISCOVER OUR SOLUTIONS

Passion for Innovation

EMPOWERING SUCCESS IN
EVERY SEASON

Fighting Side by Side with Nature.

For more than 40 years, SAN Agrow has worked alongside growers to unlock their crops' full potential. Combining scientific expertise with nature-inspired innovation, we provide an arsenal of solutions that strengthen plant health, improve productivity, and support sustainable farming.

From biopesticides and fertilizers to advanced plant health technologies, every product is carefully tested and proven under real-world conditions. The result is a portfolio growers can trust to protect crops, nurture soils, and deliver reliable performance year after year.

CERTIFICATIONS

CDFA
Registered as an Organic Input Material with the California Department of Food and Agriculture.

EASY-CERT Bio
Certified for use in organic production according to the requirements of the EU Organic Regulation.

EASY-CERT Gärtnern
Approved for organic gardening and agriculture, supporting environmentally friendly and sustainable growing practices.

EPA Organic Production
Recognized for use in certified organic crop production in accordance with organic farming standards.

INTERECO
Approved for use in organic agriculture under recognized organic farming standards.

OMRI
Approved for use in certified organic production.

WSDA
Approved by the Washington State Department of Agriculture for use in organic production under WSDA organic standards.

ZERYA
Meets the strict ZERYA® standard, ensuring pesticide residues remain below 0.01 ppm in accordance with European Regulation EC 396/2005.

Additionally recognized by further leading international organic certification bodies.

PROTECT YOUR YIELD

EQUIP YOUR CROPS FOR THE FRONTLINES

When the enemy is already at your gates, you'd better be prepared. Our crop protection products help you hold the line by blocking diseases, targeting pests, and even empowering your crops to fend for themselves.

AUREO SHIELD®

Block post-harvest diseases in citrus.

AUREO SHIELD is an organic post-harvest biofungicide based on *Aureobasidium pullulans*. It effectively protects against key citrus storage diseases like *Penicillium* and *Geotrichum* spp. , reducing decay and extending shelf life while supporting sustainable, residue-free fruit production.

Available in: France, Italy, Spain

OMRI · Organic* · WSDA

BIOLINK®

Insect & Bird Repellent

Sensory defense forcing pests into retreat.

This foliar-applied repellent provides broad-spectrum defense against a wide range of insects, birds, and small animals for fruits, vegetables, row crops, ornamentals, and tree crops. Driven by strong sensory deterrence, it supports growers by offering a field-ready tool with natural, flexible protection for farms and nurseries.

Available in: USA

OMRI · WSDA

BLOSSOM PROTECT™

A growing armor from bloom to box.

BLOSSOM PROTECT is a preventative biofungicide and biobactericide containing *Aureobasidium pullulans*. It helps protect orchards against key bacterial and fungal diseases such as fire blight, PSA and *Botrytis*, with no risk of resistance development.

Available in: Canada, EU, North Africa, Switzerland, Turkey, UK, USA

Biodynamic · Organic* · WSDA · ZERYA

BOTECTOR®

Equip your crops with an invisible armor.

BOTECTOR is a preventative biofungicide based on *Aureobasidium pullulans*. By creating a living protective barrier on plant surfaces, it naturally protects crops such as grapes, berries, vegetables, nuts or stone fruits against fungal diseases. BOTECTOR helps growers reduce disease risk, safeguard yields, and deliver premium-quality product from bloom through storage.

Available in: Australia, Canada, Chile, EU, New Zealand, North Africa, Switzerland, UK, USA

Biodynamic · OMRI · Organic* · WSDA · ZERYA

DURALEV™

Train your crops to fight back.

DURALEV is a biological fungicide and bactericide that activates the plant's natural defenses. As a Systemic Resistance Inducer (SRI), it helps fruit trees, cereals, vegetables, grapes, berries, and other specialty crops withstand fungal and bacterial diseases, providing residue-free protection for organic and conventional production.

Available in: USA

OMRI · Organic* · WSDA

GARGOIL®

Cover against insects, mites, and disease.

Broad-spectrum botanical foliar spray for managing insects, mites, and plant diseases. Gargoil's unique, dual-active, low-oil formulation provides rapid knockdown and preventative control with maximum flexibility. It fits well into integrated pest management programs.

Available in: USA

OMRI · WSDA

SUPPRESS®

The knockout-punch for unwanted greens.

A broad-spectrum contact herbicide for post-emergent, non-selective weed control for use in and around all agricultural food and non-food crops. The proprietary formulation is a non-volatile, emulsifiable concentrate that provides rapid and effective weed control. Excellent tool for preventing weed resistance by rotating with conventional herbicides.

Available in: Canada, Chile, Switzerland, USA

OMRI · WSDA

PROMOTE PLANT VIGOR

FUEL THE FIGHT FROM WITHIN

The strongest fighters need the best nourishment. Our solutions deliver the right nutrients and growing environment, fortifying your plants from the roots up to build resilience and unleash their true yield potential.

BIOLINK®

Fertilizers

Liquid life for the ultimate yield.

BIOLINK Fertilizers are a range of organic liquid fertilizers and micronutrient solutions designed to optimize crop nutrition. They support plant vigor, flowering, fruit set, and crop quality through fertigation and foliar application across a wide range of crops.

Available in: USA

CDFA · OMRI · WSDA

EARTHTREND®

Bring back hormonal harmony.

EARTHTREND Foliar and Soil are plant growth regulators designed for agronomic and horticultural crops. They support root development, plant vigor, flowering, fruit set, crop uniformity, and quality, helping growers achieve healthier plants and more consistent production.

Available in: USA

TRIGGRR®

Unlock your crop's hidden potential.

TRIGGRR is a biostimulant developed from a distinctive blend of plant-derived compounds, fermentation products, and seaweed extracts. This unique formulation promotes a synergistic effect that significantly enhances plant growth and optimizes crop quality attributes, primarily through its cytokinin-like activity.

Available in: EEA, Peru, Thailand, Turkey, USA

CDFA · Organic* · WSDA · ZERYA

PERFORM WITH PRECISION

SECURE YOUR TACTICAL ADVANTAGE

In the field, precision is everything. Our adjuvants fine-tune the tank environment so every drop hits its mark, providing the crucial edge to maximize the impact of your applications.

BIOLINK®

Adjuvants

Tune your tank for optimal application.

BIOLINK adjuvants are solutions that help optimize water quality, improve tank-mix performance, and enhance application efficiency across crop protection and crop nutrition programs. Suitable for both organic and conventional farming systems.

Available in: USA

OMRI · WSDA

BUFFER PROTECT NT™

The wingman for BLOSSOM PROTECT.

Specifically designed buffer to optimize the efficacy of BLOSSOM PROTECT against fire blight (*Erwinia amylovora*) and other bacterial diseases in crops such as pome fruits.

Available in: Canada, EU, Switzerland, UK, USA

Organic* · WSDA

XENA®

Make every drop count.

An effective adjuvant that increases the spreading and adhesion of many foliar-applied plant health products. An excellent tank-mix partner to improve the coverage and retention of agricultural sprays on the plant surface.

Available in: USA

OMRI · WSDA

QUALITY & SAFETY

SAN Agrow is committed to delivering powerful crop solutions that **never compromise the safety** of your workers, consumers, or the environment.

- No Risk of Residues
- Safe for Pollinators
- Safe for Consumers
- Safe for Groundwater
- Long-Term Healthy Soils
- HACCP Certified

* Certified for use in organic agriculture compliant with Regulation (EU) 2018/848

ARMED FOR SUCCESS

Healthy crops are the foundation of every successful harvest.
As your partner in the field, SAN Agrow equips you and your plants with the tools needed to fight off attackers and protect your yield potential.

Proven under real-world conditions and trusted by growers worldwide, our science-backed solutions turn challenges into victories, season after season.
